

**AEG-SPL-P207**  
FINGERPRINT  
PAD LOCK  
50MM

# AEG-SPL-P207 / 208

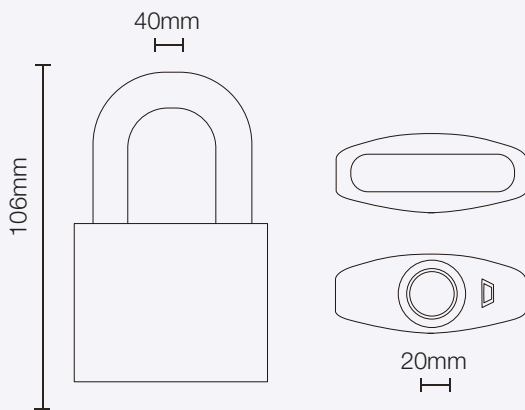

## FINGERPRINT PAD LOCK 50MM

AEG-SPL-P207  
STAINLESS STEEL SHACKLE  
Unit Price **RM360** (30 pc/carton)

AEG-SPL-P208  
ALLOY STEEL SHACKLE  
Unit Price **RM360** (30 pc/carton)

**0.5 s**  
Recognition

Semiconductor  
Biometric Device

### Security Functions

Anti-Cut | Anti-Saw | Anti-Hammer

## PRODUCT SPECIFICATION

Product Contains	Product SPL207 one, 3.7V250mA battery X1 (already assembled in the product), manual X1, a box
Unlock Method	Fingerprint unlock
Main Material	Lock body: high quality brass, shackle: high quality alloy
Dimensions	106mmX40mmX20mm
Appearance Craft	Polishing, electroplating, coloring
Applications	Transportation vehicles, outdoors, residences, etc.
Main Power	One 3.7V (full 4.37V) 250mA battery
Weight	340g
Undervoltage Alarm Value	3.55v
The Number of Times The Battery Is Fully Charged	≤3000 times (battery full to undervoltage alarm)
IP Rating	IP68
Electromagnetic Compatibility	Comply with GB17626.2 standard level 4
Electrostatic Protection	IEC61000-4-2, level X, air discharge ±12kV IEC61000-4-2, level X, Contact discharge ±8kV
Number of Fingerprint Storage	Default 20
Low battery alarm	Low battery alarm voltage value 3.55
Charging Time	1 hour from low battery alarm to full battery
Theoretical Standby Time	Battery capacity: 250mAh 360
Working Environment	Temperature -20 ~ +75
Relative Humidity	40% ~ 85% (no condensation)
Storage Environment	Temperature -40 ~ +125
Relative Humidity	<85% (no condensation)
